Homeland Security Terrorism Bulletin Warns of Weaponized Drones and Threat to Aviation.

The Department of Homeland Security (DHS) issued an updated terror bulletin on Thursday highlighting the threat of weaponized drones, chemical attacks and the continued targeting of commercial aircraft. "We continue to face one of the most challenging threat environments since 9/11, as foreign terrorist organizations exploit the internet to inspire, enable or direct individuals already here in the homeland to commit terrorist acts," reads the bulletin secondcomingherald.com/11/11

Russia To Test New Generation Missile (Satan 2) That Can Beat US Defense System.

This week the world was reminded that North Korea isn't the only country showcasing its nuclear power to the world. Russia conducted a massive test of its most advanced missile technology as the concluding salvo of the large-scale Zapad war games it conducted on NATO's eastern border. The frighteningly powerful new missile technology now raises the stakes in a nuclear arms race that many had hoped was cooling down over the last few decades. prophecynewswatch.com/11/9.

In the midst of a nation and world in turmoil and chaos, let us turn our focus on the precious heritage and hope we possess through Jesus. "Fear not" was the message Jesus taught his disciples. Rest in the peace and security of the Holy Ghost, and let us constantly give thanks for His manifold blessings. "End times" has a different connotation for those prepared to meet the Lord at His soon appearing than for the world which faces terror, torment and death. Let us rejoice in the Lord while we intercede for the

Tunnel Collapse at North Korea Nuke Test Site - 200 Dead.

It appears that a collapsed tunnel at a North Korea nuclear test site has collapsed killing at least 100 people and another hundred people are feared dead as they attempted to rescue those in the collapsed tunnel, according to a report. freedomoutpost.com/10/31

Where Are We Headed?

U.S. Congress' Latest Police-State Bill.

On Oct. 31, following recommendations made in the Commission on Evidence-Based Policymaking's (CEP) final report, House bill 4174, along with companion Senate bill 2046 was introduced. If the current bipartisan legislation passes, the federal government will be able to track you throughout life. The real purpose of CEP is for Congress to create permanent, life-long dossiers on every higher-education student. All college students would be entered into a

massive federal database without their consent or knowledge or ability to opt out and there would be no limits to the data collected – employment, health, military service, financial, legal, family, religious, political, social, criminal. There currently is a statutory ban on a "federal student-unit record system." prophecynewswatch.com/11/14

800 US School Websites Hacked With "I love Islamic State," and the Islamic Profession of Faith.

What is ironic about this is that in the vast majority of those schools students are taught that Islamic jihad violence has nothing to do with Islam, and that Muslims are the victims of large-scale "Islamophobia," such that concern about jihad terror is "hateful," "bigoted," and "racist."

Pushing the Boundaries of Science and Morality.

Researchers from the Oregon Health and Science University have successfully “edited” a gene mutation in human embryos that they created. (*National Geographic*, August 2). “The team used ‘genetic scissors’ called CRISPR-Cas9 to target and remove a mutation associated with hypertrophic cardiomyopathy, a common inherited heart disease, in 42 embryos.” While many scientists are hailing the research as revolutionary, many bioethicists are labeling it as “scientists... out of control.” To conduct the research, scientists created 58 living embryos. Following the successful gene editing, the embryos were destroyed. If the U.S. government prevents continued research through bioethics laws, some scientists plan to conduct their research in other countries that allow this type of research. Many liken genetic editing to “playing God” and are thus opposed. In today’s rapidly changing world, it is worth remembering *why* God intervened at the tower of Babel. God saw human society going in a direction He did not want it to go, so He confused the languages because He knew that “nothing that they propose to do will be withheld from them” (*Genesis 11:6*). Today, science and technology are advancing faster than the ethics needed to control this advance, which is one more indicator of the need for Christ’s return! (*twnews&prophecy.com 8/11*)

Plagues and Disease

Minnesota Tuberculosis Outbreak Of A Multi-Drug-Resistant Strain Hard To Fight.

An outbreak of tuberculosis has surfaced in Minnesota, and medical officials are concerned. Normally, the disease is treated with antibiotics. But this new strain is resistant to multiple drugs, making it difficult to control. (*freedomoutpost.com 11/9*)

Gonorrhea Soaring in Australia.

Over the last five years, the sexually transmitted infection (STI) gonorrhea has increased by 63% among Australians. (*BBC*, November 6, 2017). STI rates are also at a record high in the USA (*Jewish World Review*, November 3, 2017). Gonorrhea is one of

the STIs that is developing antibiotic resistance. (*twnews&prophecy.com 11/10*)

Pneumonic Plague Goes Airborne As People Are Literally Dancing With The Dead.

The black death plague is airborne and has killed at least 124 people in Madagascar. This is the time of year when families customarily exhume the remains of dead relatives, wrap them in a sheet, and dance with them through the streets in a sacred ritual, AFP reports. This is said to be one of the major causes of the spread of the black death since it’s airborne so anyone coming close to the

corpse of a person who has died can catch the infection. (*freedomoutpost.com 10/27*)

Bubonic Plague in Arizona.

U.S. public health officials have discovered fleas infected with the bubonic plague, sometimes called the “Black Death”, in Arizona. This is the same bacterium that killed millions of people in Europe in the fourteenth century. Infected fleas transmit the plague to animals, usually rodents, and either a rodent or flea bite can transfer the disease to humans (*IB Times*, August 14, 2017).

More Earthquakes

The Earth Shook As Two Massive Earthquakes Strike: ‘There Are Still People Under The Rubble’.

A large 6.3 magnitude earthquake struck just off the coast of Jacó, Costa Rica last night, only hours after a 7.3 magnitude quake struck the Iran/Iraq border killing at least 530 people across both countries and injuring about

6,500, sending residents fleeing their homes into the night, and it was felt as far away as the Mediterranean coast. (*freedomoutpost.com and secondcomingherald.com 11/14*)

What’s Happening At Home?

Over 120 American Citizens Who Fought For The Islamic State Have Returned - We Don’t Know Where They Are!

U.S. officials say that of the 129 Americans who successfully left the country to join ISIS, only seven have been confirmed to have returned to the United States. The United States does not revoke the citizenship of those who choose to join a terror group and fight against the U.S. Evidently, when these terrorists are finished shooting at and possibly killing American soldiers overseas, they are free to return home. Since there is really no way to know for sure whether they have killed Americans, they can’t be charged with anything. What a great system. (*freedomoutpost.com 10/31*)

This Is What A Pre-Crash Market Looks Like.

The only other times in our history when stock prices have been this high relative to earnings, a horrifying stock market crash has always followed. This current bubble has been based on irrational euphoria that has been fueled by relentless central bank intervention, but now global central banks are removing the artificial life support in unison. and once the bubble bursts the pain is going to be unlike anything that we have ever seen before.
