**Donald Trump's Recognition Of Jerusalem
As The Capital Of Israel Will Shake The
Middle East To The Core.**

US President Donald Trump called the leaders of Israel, the Palestinian Authority, Jordan and Egypt on Tuesday to inform them of his intention to move the US Embassy in Tel Aviv to Jerusalem, 22 years after the US Congress called on the White House to do just that. What Trump didn't say, however, was when the move would take place, something that could provide some maneuvering room for him to try to tamp down Arab anger over the highly contentious

step. This is one of the most historic things to happen in the Middle East in decades.

Trump: US officially recognizes Jerusalem as Israel's capital. President Donald Trump has made it official: the United States now recognizes Jerusalem as the capital of Israel and the U.S. embassy will be moved there from Tel Aviv, despite international fury from the Pope, Britain, Russia, China and Palestinians.

The Political and Spiritual Significance of Trump's Decision.

The President is convinced formal recognition of Jerusalem will aid and abet the peace process. But even if that's not the case, I, (Dr. Michael Brown) truly believe that God will bless him, and America, for this courageous and righteous decision. Ben Shapiro listed 7 reasons why Trump's decision to move our embassy to Jerusalem is right, calling it "an act of not only political bravery but moral courage." But is it an act that God Himself will bless? Is there spiritual significance to this decision as well? (onenewsnow.com 12/7)

AI & Autonomous Weapons Will Change Everything.

Imagine a world in which people who hold a certain political ideology could be sought out and summarily executed with surgical precision using autonomous microdrones and with no collateral damage. While this may seem like a great way to eliminate terrorist organizations like ISIS or Al-Qaeda, it could also be used by them to wipe you out. As the Future of Life Institute points out, autonomous weapons can select and engage targets without human intervention.

Iceland's Healthier Teens. Iceland boasts some of the lowest rates in the world for teen alcohol and drug use. (The Atlantic, January 19, 2017). Nations and municipalities around the globe are adopting the "Youth in Iceland" model with

similar results. They have instituted nationwide curfews for teens, a wide variety of after-school activities and government endorsed and supported quality family time. The results of this program: 15- and 16-year-olds who had been drunk in the previous month plummeted from 42% in 1998 to 5% in 2016. Those who have ever used cannabis is down from 17% to 7%. Those smoking cigarettes every day fell from 23% to 3%. Having parents and children whose hearts are turned toward one another is important to God (Malachi 4:6). Children become oppressors of society (cf. Isaiah 3:12) when they are unsupervised, when they lack clear guidelines and rules, and when parents fail to parent. Children need to be led, guided and loved, and when they are, they thrive. The "Youth in Iceland" model demonstrates this powerful parenting principle, even when its biblical basis is not acknowledged. (twnews&prophecy.com 12/8)

God Destroyed Sodom and Gomorrah for the Sin of Sodomy

America vs. Sodom & Gomorrah: What's the Difference?

In recent days we have seen a parade of women telling of the abuse done to them by powerful men. Men like John Conyers, Al Franken, Trent Franks, Roger Ailes, Matt Lauer, Charlie Rose, Harvey Weinstein, Kevin Spacey, and others. This is the fruit of the "sexual revolution" that swept America in the 1960's. Two leading figures in this revolution, both now dead, were Betty Friedan, the female leader and Hugh Hefner, the male leader. Hefner told men that the good life was living for bodily pleasures, that fornication and adultery were not sins, but rather the natural way a healthy man lived. Early on he also began promoting sodomy. If life is all about bodily pleasures, then who cares how that

happens? Hefner promised that if you followed his Sodom and Gomorrah philosophy life would be happy, happy, happy. Betty Friedan had a similar message for women, that women should have sex before marriage, and a career after marriage. She advocated adultery, a woman disregarding God's law to get what she wanted, for a woman to sleep her way to the top, harlotry for fame and money. She taught them that this glamorous life and career would make them happy, happy, happy. Well if that's true then why all of this complaining now? Their philosophy of lies has run into a solid brick wall called the reality of the laws established by our Creator. You cannot violate God's Law and not face

the consequences. Fornication and adultery have consequences that are beyond the rampant outbreak of sexually transmitted diseases. A soul is broken by these sins. The evidence of all the scandals, the firings, the crashing reputations and careers is that these philosophies are lies and those who follow them destroy themselves. Any society that condones these philosophies is on the road to destruction. But there is an exit ramp on the highway to hell, the road sign reads "Repent". Repentance involves sorrow for sin, confession of it as an evil we repudiate, and a rebuilding in our minds and hearts of the truth of God's Holy Law. It is high time for America to Repent.
