Is a Reset Near?

Six Fast Facts About the Economic Collapse of Illinois. The State of Illinois is facing an economic collapse. Some pundits call them "The Venezuela of the United States." They owe \$14,711,351,943.90 in overdue bills. This does not count their day-to-day operating expenses. Here are six things you need to know about what's going on in Illinois and how they got to this crisis point. 1) Illinois is about to be the first state ever to have their credit downgraded to "junk." 2) They haven't had a state budget in three years. 3) A federal court ruling on Friday will force them to make payments of \$600 million a month to catch up. 4) So instead of a budget, state Congress approved a 32% income tax increase. 5) The workforce of Illinois is fleeing the state as fast as they can pack. 6) There's more. A quarter of a trillion dollars in pensions will be

due SOON. (freedomoutpost.com 7/6)
The World Is Now \$217,000,000,000,000 In Debt and the Global Elite Like It That Way. The borrower is the servant of the lender, and through the mechanism of government debt virtually the entire planet has become the servants of the global money changers. Politicians love to borrow money, but over time government debt impoverishes a nation. As the elite get governments around the globe to increase amounts of debt, those governments must raise taxes in order to keep servicing those debts. In the end, it is all about taking money from us and transferring it into government pockets, and then taking money from government pockets and transferring it into the hands of the elite. It is a game that has been going on for generations. Enough is enough.

Senate Bill 1241. In the name of fighting terrorism financing, *Senate Bill 1241, "Combating Money Laundering, Terrorist Financing, and Counterfeiting Act of 2017,"* introduced last month represents what some financial experts say is a new assault on cash and digital currencies. It threatens to force private corporations to monitor your financial activity and empowers government to seize **all** your assets if you fail to comply with the new law. Even failure to fill out one form is license for the federal government to take everything you have. (prophecynewswatch.com 6/27)
The Bank of Israel prepares for a war on consumers. If consumer debt is going out of control, look for the causes in the wage scale and in the prices of food, gasoline, utilities and insurance before punishing the Israeli working class. Editor Dr. Harold Goldmeier 6/26

Has America Passed The Point Of No Return?

On July 1, 2016, conservative author and filmmaker Dinesh D'Souza sent out an email titled, "On The Brink Of Losing America Forever," and it certainly feels that we are that close. But have we passed the point of no return? We could all point to a virtual mountain of sins and crimes that are rampant in our country, including the killing of more than 55 million babies in the womb. We could all indict America on many fronts. That is easy to do. But has Almighty God written us off forever? As we celebrate the 241st anniversary of our nation this July 4th, this is the most important question we can ask. Everything is else is secondary.

Can America be saved?

Men's Misguided Search for Eternal Life

Technology Echoing Satan's Lie: 'You Shall Not Die'. Genesis 3:4, "And the serpent said unto the woman, Ye shall not surely die." A biotech company promising to resurrect the dead through the use of stem-cell technology recently was criticized by a rabbi for violating divine law with its plan. (wnd.com 7/7)

Transhumanism, Just Another 'Religion' in Which Man Seeks to Become God.

Transhumanism, an intelligence so capable it can perceive every cause and effect. The promise of eternal life, the dawn of a new age in which suffering will be eliminated and

every need being met, and the individual finding fulfillment by subordinating himself to something far greater than himself. These are the promises of most great faiths. The capacity to understand and predict everything that could possibly occur is a characteristic most would ascribe to God. But today, this rhetoric surrounds an ostensibly scientific and secular movement. Transhumanism, the attempt to overcome the body's limitations through technology, and the hunt for artificial intelligence are promoted with evangelistic language. Around the world, heavily funded by billionaire philanthropists and researchers

are probing whether aging can be curbed or even prevented, just like any other disease. (wnd.com 6/30)
