

14 Facts Prove That America Is In Deep, Deep Trouble

Throughout human history every great society has eventually entered a period of decline, and sadly that is happening to us as well. **#1** In the 80's the US national debt was less than one trillion dollars; now nearly 20 trillion. **#2** In 1956, 5% of all babies were born to unwed mothers. Since 2008 the number has been 40%. **#3** In the 70's above 60% of Americans were middle class. Since 2015, it is below 50%. **#4** Our Educational Testing Service reported only 2 of the 22 industrialized nations scored worse than US in literacy proficiency, and we were last in math scores. **#5** The US has the highest rate of illegal drug use on the entire planet, and an even bigger problem with legal drugs. **#6** The CDC reports 110 million Americans have a sexually transmitted disease, with 20 million new cases a year. **#7** There are 150,000 gang members in Chicago alone; they outnumber the police by more than a 10 to 1. **#8** There are more than 4 million porn websites on the Internet, and they get more traffic than Netflix, Amazon and Twitter combined. **#9** In 1913, the federal income tax was simple and at a rate of 1%. Now the tax code is above 2 million words long and the regulations more than 7 million words long. **#10** Government wastes money in insane ways; the military spends \$42 million a year on Viagra. **#11** Since 1973, nearly 60 million American children have been murdered in abortion mills. **#12** Doctors in the US write more than 250 million prescriptions for antidepressants each year. **#13** The average rate of economic growth over the past 10 years has been exactly equal to the average rate during the 1930s. **#14** In 2007, 54% of all Americans opposed gay marriage; now only 32% are still against it. The Endtimes Are Now!

News headlines related to biblical prophecies about the end times.

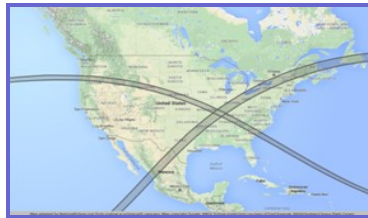

Coming Soon: The Most Unusual Solar Eclipse In U.S. History . August 21st is the date of "the Great American Eclipse", and the hype around it is already starting to reach a fever pitch. In other words, since the United States became a nation there has never been a total eclipse that was only visible here and nowhere else. And this will be the first total solar eclipse in 99 years to cross from the west coast to the east coast.

Many hotels and campsites along the path of the eclipse are already completely booked. It will take approximately two and a half hours for the entire process to unfold although the moon's shadow will actually be crossing the U.S. at a speed of close to 1,700 miles per hour. This eclipse will actually cast a "shadow" over the entire nation, well beyond the "totality zone". Could it be possible that has some sort of significance? No one knows, but likely there will be a lot of speculation going on as we get closer to the date. Many have pointed out that this solar total eclipse in 2017 will be followed by another total solar eclipse nearly seven years later

Signs in the Sun, Moon, and Stars

on April 8th, 2024. And when you plot the projected courses of these two solar eclipses on a map, they form a giant "X" over the center of

the United States. Could this be some sort of extremely bizarre coincidence? It is extremely interesting that the heart of this "X" just happens to fall in the middle of the New Madrid fault zone. Back in 1811 and 1812, the New Madrid Fault zone was hit by a series of absolutely massive earthquakes. If similar earthquakes happened in our day, the damage would be absolutely unimaginable. Preparing For Wormwood - NASA Launches Planetary Protection Exercise. What was previously the stuff of Hollywood movies is seemingly moving from science fiction to the realm of harsh, possible reality.

NASA, FEMA and other government agencies engaged last month in a planetary protection exercise to consider the potentially devastating consequences of a 330-foot asteroid hitting the Earth. The exercise projected a worst-case blast wave by an asteroid strike in 2020 that could level structures within a radius of 30 miles, require a mass evacuation and cause tens of thousands of casualties. Paul Chodas, manager of NASA's Center for Near-Earth Object Studies at the Jet Propulsion Laboratory in Pasadena, California, says the center relies on several telescopes to track potentially hazardous asteroids and comets. By November of that year, in the scenario, they found that it would hit across Southern California or nearby in the Pacific Ocean. Is it possible that an eventual asteroid strike on Planet Earth is also predicted in the Bible? Some observers of the scriptures believe that Revelation 8:10-11 gives an indication of this. Could it be that the "great star" named Wormwood is an asteroid that would poison the natural waters, rivers and fountains of the earth? The word "wormwood" is mentioned only here in the New Testament, but it appears seven times in the Old Testament, each time associated with bitterness, poison and death. (prophecynewswatch.com 7/14)

Genesis 1:14 *"And God said, Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for seasons, and for days, and years"* Luke 21:25 *"And there shall be signs in the sun, and in the moon, and in the stars ..."* Matthew 2:2 *God gave a sign of a brilliant star over Bethlehem which the wise men followed to locate Jesus.* Luke 23:44 *states there was three hours of darkness while Jesus was on the cross.* In Acts 2:20 Peter repeats Joel's prophecy of the sun turning dark and the moon turning to blood before the *"great and terrible day of the LORD come."* These and many other signs are recorded in the scriptures.

What is the Big Deal About Jerusalem?

Jerusalem has no natural harbor. It isn't situated on any major trade route, nor is it a gateway city. It's not a banking, industrial, commercial or medical power. It has no natural resources, no oil! While it's too hilly for an airport, it also does not command any strategic high ground. It has nothing at all to commend it except for the fact that God chose it for Himself. To Satan, that makes it the most desirable piece of real estate on the planet. The battle that began way back in the Garden continues to rage today!

Israeli sovereignty over the Temple Mount is crucial for peace. Regardless of its security merits, Israel's decision to place metal detectors at the entrances to the Temple

Jerusalem

Temple Mount has been transformed by adversaries and Israel into an issue of sovereignty and so it is. Power-sharing never works. Why is Israeli sovereignty over the Temple Mount so important? Because international "partnership" arrangements in political hotspots not only rarely (if ever) work, but make matters much more volatile and dangerous. At the Temple Mount, only exclusive Israeli sovereignty can work.

Turkey: Erdogan's Obsession to Take Jerusalem. "Erdogan had pragmatically agreed to shake hands with Israel, but his ideological hostility to the Jewish state and his ideological love affair with Hamas have not disappeared; so the Turkish-Israeli 'peace' would not be easy to sustain". Only half a year into the "normalized charter." Erdogan in May pledged that his government would work with the Palestinian people to guard against the "Judiazation of Jerusalem." Precursor to the Mark of the Beast?

It's Begun - First U.S. Company Wants to Microchip Employees.

Yes, you read that right; a Wisconsin company, Three Square Market, wants to implant a rice-sized microchip. "It's the next thing that's inevitably going to happen, and we want to be a part of it," Three Square Market Chief Executive Officer, Todd Westby, said. Three Square Market designs software for break rooms that are

commonly seen in office places and the markets where you get your food and check out yourself. "We'll hit pay with a credit card, and it's asking to swipe my proximity payment now. I'll hold my hand up, just like my cell phone, and it'll pay for my product," Westby said. Over a dozen of Three Square Market employees are getting the microchip implant paid for by the company. The tiny chip, which uses RFID tech-

nology or Radio-Frequency Identification, can be implanted between the thumb and forefinger "within seconds," according to a statement from Three Square Market. The report noted that the business is not requiring its employees to get the chip and that it's optional. So far 50 people are believed to have opted in to take the plunge and get the microchip implanted. (prophecynewswatch.com 7/26)

This is not the Mark, but when it comes the same or similar technology may be used for implementing the Mark of the Beast. Read Revelation 13:16-18.
