**Trump: We'll Cut Off Money to "Palestinians" if Leaders Don't Engage in Peace Negotiations.**

**Are YOU Rapture Ready?**

Recently, "the leader of the Russian Orthodox Church said... the world is on the brink of slipping into 'the abyss of the end of history'" (Newsweek, 11/21/2017). He warned his congregants that the coming end of the age is currently "visible to the naked eye." As well, 15,000 world scientists gave a very similar warning in their "Letter to Humanity" (The Independent, 11/13/2017). Regardless of the accuracy of these scientists' specific predictions, an end of human government echoes exactly what Bible prophecies have long foretold. Jesus actually listed observable signs that would mark the approaching "end of the age," Bible students can recognize the specific signs that will precede the return of Christ, an event that will forever change the course of history. ## The Parent...Or The State?

**Doctors' Report: Common Vaccine Likely Worse than Getting Disease it's Supposed to Stop.** The Physicians for Informed Consent (PIC) is a group of doctors educating their patients and the public on infectious disease, the immune system, and informed consent. The group is not anti-vaccine, they are pro-freedom. Recently, the PIC reported in the British Medi-

cal Journal that every year, about 5,700 U.S. children suffer from seizures as a direct result of the measles, mumps, and rubella (MMR) vaccine. 5% of those seizures result in epilepsy, a chronic brain disorder. Permanent side effects from measles, in individuals with normal levels of vitamin A, are very rare. Measles is generally a benign, short-term viral infection; 99.99% of

measles cases fully recover. While there is a risk of seizure from contracting measles, according to the data, the risk of seizures from the vaccine is five times greater. Parents should make the decision for their child, not the State. (freedomoutpost.com 2/1)

**HB 1505: A Shot for Religious Liberty.** People in Mississippi are urged to ask their representative to support House Bill 1505,

that gives them the religious liberty exemption to allow parents to choose which vaccines their children should or should not have. There are numerous vaccines on the market today that are based on aborted baby cell tissue. In California, West Virginia, and Mississippi parents cannot make that decision for their children. ## Trial Run of 'King David' Jerusalem Express

**Train.** Transportation minister participates in trial run of Tel

Aviv-Jerusalem high speed train, set to open at the end of March. "We are connecting Jerusalem and connecting to the history of Jerusalem. I decided to call the fast rail line to Jerusalem King David

Railways after King David, who conquered Jerusalem and turned it into the capital of Israel," an event which occurred over 3000 years ago. The Minister of Transportation noted that the fast railway line to Jerusalem, which will open on March 30, 2018, will enable the Israeli public to make a pilgrimage to Jerusalem via an

electric train that will travel through dozens of kilometers of tunnels and bridges at a speed of 160 kilometers (99 miles) per hour.

The train will pass Ben Gurion Airport, Modi'in and Sha'ar Hagai, and will arrive in Jerusalem from Tel Aviv in just 28 minutes. (israelnationalnews.com 1/17)

### **Zechariah 14:16**

And it shall come to pass, *that* every one that is left of all the nations which came against Jerusalem shall even go up from year to year to worship the King, the Lord of hosts, and to keep the feast of tabernacles.

## Israel Minister Plans Trump Train Station at Western Wall.

Israel's transportation minister is pushing ahead with a plan to dig a railway tunnel under Jerusalem's Old City, passing near sites holy to Jews, Christians and Muslims, and ending at the Western Wall with a station named after President Donald Trump. (onenewsnow.com 12/27)

## **Conflict over Jerusalem**

Among King Abdullah's most sobering comments at VP Pence's recent visit was his view of the overall importance of Jerusalem to the world: "For us, Jerusalem is key to Muslims and Christians, as it is to Jews. It is key to peace in the region." The king also emphasized the importance of a two-state solution. The Bible predicted that Jerusalem would be a "cup of drunkenness" and a "very heavy stone" for the nations surrounding it (Zechariah 12:2-3), and it has been for millennia. It has been a source of war and a symbol of peace. Even today, many modern nations and governments desire to control it, including the Palestinians and the Vatican. End-time prophecies describe a time just prior to its desolation, when Jerusalem will be "surrounded by armies" (Luke 21:20). A charismatic world leader will defile the "holy place" (Daniel 12:11; Matthew 24:15-16) and kill God's two witnesses in Jerusalem at the end of their 3½-year prophetic ministry (Revelation 11:3-9). The Bible also reveals that Jerusalem is a key to peace in the region and the world! Ultimately, the returning Messiah, Jesus Christ, will descend on Jerusalem and make it the new world capital. From there He will reign as King of kings and Lord of Lords (Revelation 17:14), and from there the law will go forth to all the earth (Micah 4:2). *Watch* for the world's attention to focus increasingly on Jerusalem, and *watch* for the Europeans and the Vatican to become more deeply involved in Jerusalem's future—and *watch* for the Jews to reinstitute sacrifices on the Temple Mount. ## The Ring of Fire is Active

**Anchorage, Alaska.** A 7.9 magnitude earthquake struck off Alaska's Kodiak Island early Tuesday, prompting a tsunami warning for a large swath of the state's coast. (AP 1/23)

**Alert Level Raised as Mayon Volcano Explodes.** The Philippines' most active volcano ejected a huge column of lava fragments, ash and smoke in a thunderous explosion Monday, sending thousands of villagers back to evacuation centers and prompting a warning that an eruption may be imminent. (onenewsnow.com 1/23)

**Ring Of Fire ON ALERT As Earthquake Rocks Japan.** The ring of fire is on alert after Japan was rocked by an earthquake. The 5.1 magnitude quake is just one more in the past week that's made the area increasingly geologically unstable. It comes after a week of chaos in the region, with a volcanic eruption sparking a fatal avalanche in Japan earlier this week. And still, one other fairly major earthquake which measured at a 6.2 magnitude struck off the coast of Honshu at a depth of 24 miles. "The Pacific Rim is in a period of activity," acknowledged Nagao, head of Tokai University's Earthquake Prediction Research Center. (freedomoutpost.com 1/23)

**Deadly Earthquake Strikes Taiwan; Shelters Opened.** Since January 22, there have been seven major earthquakes, 6 mag or higher, (Indonesia, Taiwan, Japan, Russia, Alaska Mexico, and Chile) and six active volcanos around the Ring of Fire. Since the beginning of 2018 13 major earthquakes have hit the area. (Bloomberg.com 2/6)

## Trust In The LORD With All Thine Heart (Pro. 3:5)

### Journal of the American Medical Association:

#### Over 30% of All 'FDA-Approved' Drugs Have

#### Grave & Deadly Side Effects.

Close to one-third of drugs approved by the FDA are found to have safety problems, according to a research report from The Journal of the American Medical Association. Every single day in the United States, 1,000 people are treated in emergency departments for a single FDA-approved drug—opioids. Opioid drug overdoses now kill more people annually than the number of Americans who died in the Vietnam war. Acetaminophen overdose is actually the leading cause for calls to Poison Control Centers across the U.S., more than 100,000 instances per year. Each year it is responsible for more than 56,000 emergency room visits, 2,600 hospitalizations and an estimated 458 deaths due to acute liver failure. Antidepressants, which are

handed out like candy with the FDA's blessing, cause over 40,000 deaths per year. The death toll from the three aforementioned medications tops 100,000 annually, yet still, there are countless others. A study revealed that 222 "novel therapeutics" were approved by the FDA between 2001 and 2010. Out of those 222 FDA-approved products, 32% of them had safety issues found later.

**Japan to Drop Ban on Organ Harvesting.** Government revises guidelines to create human-animal embryos. Creating human organs in animals, they say, could help address the shortage of organs for transplants. Also, it is hoped that creating animals that can develop human diseases could aid research into the development of new medical treatments for humans (wnd.com 2/4)
