Hamas Turns Away 2 Large Truckloads of Israeli Humanitarian Aid Meant To Relieve Medical Shortages In Gaza Strip.

The IDF said it coordinated the transfer of eight truckloads of vital medical equipment through the Kerem Shalom crossing due to severe humanitarian conditions in the Hamas-controlled enclave, with hospitals struggling to treat Palestinians wounded in clashes on the Israel-Gaza border on Monday and Tuesday Hamas accepted four trucks of aid supplied by the P A and two trucks supplied by UNICEF. But two truckloads of medical aid provided by the IDF were turned away when the origin of the equipment became apparent. It might be tougher to demonize Israel among its own people, as well as on the world stage, while accepting Israeli humanitarian aid. (freedomoutpost.com 5/17)

WHY ARE AMERICANS KILLING THEMSELVES IN RECORD NUMBERS?

The Centers for Disease Control and Prevention (CDC) reports, "Suicide rates are climbing in nearly every demographic, age group and geographic area" in the United States (Time, June 7, 2018). Between 1999 and 2016, suicide rates rose more than 40 percent. Most did not have known diagnosed mental health conditions, says the report. The question is why? I have a theory. My guess is most do not have a close relationship with or a strong faith in God. Rather, many have adopted the "religion," of humanism, the de facto worldview. In addition, many churches have abandoned the basic precepts of the Bible, that God created everything, including human beings in His own image, and He wants us to experience everlasting life. And Other Things...

Google.gov. There's a Scary Thought.

Written by Andrew White this week in The New Atlantis, the headline is very simple – not to mention alarming: "Google.gov." The sub-headline: "Amid growing calls to break up Google, are we missing a quiet alignment between 'smart' government and the universal information engine?" (wnd.com 6/29)

Farmers In America Are Killing Themselves In Record Numbers.

While it's simple to say farmers' suicides are a result of financial hardships, it's not so simple for most to admit that the prob-

lem is their own government and its inability to allow anyone the freedom to be a producer. The professional field of farming, fishing and forestry suicide rate is more than five times that of the population as a whole. (wnd.com 6/29)

One Trigger Event Away From Violence - Radical Left Plotting Next Step. You might want to start taking the radical left seri-

ously. When they tell us “you ain’t seen nothin’ yet” and that “this is just the beginning.” they are making threats that they intend to back up. There have been other times in modern American history when the left has resorted to physical intimidation and violence, but I believe that what is coming is going to far surpass anything that we have ever experienced before. In an article written by progressive writer H. Nolan entitled “This Is Just The Beginning”, he posed an ominous question. “Do you think that being asked to leave a restaurant, or having your meal interrupted, or being called out by the public is bad? My fascism-enabling friends, this is only the begin-

ning.” (prophecynewswatch.com 6/28)

EU Reportedly Ready To DITCH U.S. Dollar In Payments For Iranian Oil. (freedomoutpost.com 5/16)

A Mini Nato? The decision of nine EU states to form a rapid intervention force looks like a redundant attempt to build a mini-NATO. The European Intervention Force (EIF) is for the most part a bloc of Western European countries that have come to represent so-called “Old Europe”, with the exception of Estonia. From the looks of it, the EIF is intended to be an EU-led mini-NATO that’s much more relevant for Western Europe’s needs than the Transatlantic bloc as a whole.
