

We are rapidly approaching the end of human government and the beginning of the millennial reign of Jesus.

Many Scriptures tell us of the glorious **catching away of the church**, the bride of Christ. Revelation 13 lets us know there will be a **one-world govern-**

What's Ahead?

ment, one-world religion, and one-world economy. Revelation 9 tells us of a **world war** in which one-third of men are killed. Daniel 9 states there will be a confirmation of the covenant, or a **peace treaty**, between Israel and her Arab neighbors. Matthew 24 and other Scriptures tell us of a time of **great tribulation** on this earth. Be-

cause of America's decadence and turning from God, without repentance, **God will judge our nation** as He did Israel. Our daily headlines let us know we are very close to the end; the prophecies are being fulfilled daily, leading the world to the millennial reign of Christ. God's word is sure and never has nor ever will fail.

U.S. Government Updating Nuclear Disaster Plans. Amid concerns over North Korea, federal emergency managers are updating

FEMA has also considered scenarios where a nuclear bomb, a cyberattack, a coordinated electromagnetic pulse, and biological weapons all hit the US at the same time. (endtime.com 9/1)

Jordan-Israel Negotiations Set to Bypass PA. Walid Sadi, retired Jordanian Ambassador, in an op-ed article in the Jordan Times on 12 August, has forcefully argued that Jordan's decision to cut off all legal and administrative relations with the disputed territories in July 1988 did not amount to Jordan ceding its claims to sovereignty. Jordan's claims are far superior to those of the Palestine Liberation Organization (PLO), Jordan being the last Arab state to occupy and claim sovereignty (albeit illegally) in the disputed

territories from 1948 until their loss to Israel in the 1967 Six Day War. (endtime.com 8/23)

Grotesque: U.S. Gov't Cannibalizing Babies So Mice Can Live.

In a development that is almost too Nazi-esque to believe, our own government is working with Planned Parenthood to get "fresh" tissue from aborted babies to produce "humanized mice." "Humanized mice." Dwell on that two-word phrase for a moment. It's their phrase, not mine. The FDA is actually contracting with Planned Parenthood to get tissue from freshly

aborted babies that they implant in mice, to improve the immune systems of the mice. (onenewsnow.com 8/8)

More on Government Use of Your Child's DNA. In Michigan, California and likely many other states, the little prick blood sample taken from your new born's heel is used for more than hospital identification. Since 1987 the blood has been sent to the government for permanent DNA records. Whether or not you sign a form authorizing them to use the blood or DNA of your child for research, there is a way they can override your control. (Wood Radio, MLive, 8/17)

The Number and Intensity of Earthquakes

53 Major Earthquakes (Including A Magnitude 8.2) Just Hit The Ring Of Fire in a 24 Hour Period.

Is something unusual starting to happen to the crust of our planet? The USGS defines any earthquake of at least magnitude 4.5 as "significant", and there were 53

earthquakes that met that criteria along the Ring of Fire on Sunday alone. Not too long ago, I wrote about how "earth changes" seem to be accelerating all over the world, but even I was stunned by the ferocity of the seismic activity that we witnessed over the weekend. Because

none of the earthquakes happened in the United States, the mainstream media almost entirely ignored this story, but that is a huge mistake. The entire west coast of the U.S. falls along the "Ring of Fire", and experts assure us that it is only a matter of time be-

fore the seismic tension that is building up along the tectonic plates in that area is released. (freedomoutpost.com 8/20)
