

The Endtimes Are Now!

Floods & Drought Devastate Crops Around The Planet - Global Food Crisis Coming?

It looks like global food production could be well below expectations in 2019, and that could spell big trouble in the months ahead. As many as a million calves were lost to the flooding that hit the state of Nebraska in March. Farmers have planted less than half of the corn that is normally in the ground by this time and many are unable to plant any crops because of flooding. Michigan has lost two-thirds of their peach crop due to the polar vortex. After the worst drought in 116 years Australia who last year was the 5th largest exporter of wheat in the world, has to import wheat this year. A recent article also detailed crop failures in Italy, France, Mexico and Argentina. The Capiz Province in the Philippines has experienced massive rice crop failure, more than P350 million worth of damage, due to drought. In N. Korea hardly any rain at all has fallen so far in 2019 and farmers have had an exceedingly difficult time growing anything at all. N.K. is facing an enormous food deficit. Let us not forget that African Swine Fever is absolutely devastating the global pig population with the projection that China alone will lose 200 million hogs. We are facing catastrophic crop failures all over the planet. Read Matthew 24:7. Jesus is coming! (prophecynewswatch.com 5/23)

Israel to Go Back to Polls on September 17, After Netanyahu Fails to Build Coalition. Arab parties, Yisrael Beytenu join Likud to help dissolve Knesset after prospective coalition partners balk at PM's last ditch compromise deal over conscription bill. (timesofisrael 5/29)
Likud Source: Liberman Wants to Destroy Netanyahu, Supplant Him. (timesofisrael.com 5/29)
Rivlin: 'I Will Do Everything in My Power to Prevent Another Election' President Rivlin says he "will do everything in my power to prevent Israel from heading toward another election campaign." (timesofisrael.com 5/29)
Netanyahu Appoints Amir Ohana Justice Minister, First Openly Gay Cabinet Member. Likud legislator, first openly gay MK in a right-wing party, replaces Ayelet Shaked. Smotrich, passed over and accuses Netanyahu of slighting religions Zionists. (timesofisrael.com 6/6)

The Middle East

Palestinian Islamic Jihad Declares Trumps Peace Plan "Born Dead", Renews Violent Threats to Israel. al-Nakhal, leader of Palestinian Islamic Jihad, has boasted that the group "can launch more than 1,000 rockets a day into Israel for months. The resistance has the ability to harm any target within the Israeli entity." Yet the world gives massive donations to so-called poverty in the Palestinian territories while its many groups and leaders use donations, along with money from Iran, to fund jihad terror against Israel. (jihadwatch.com 6/4)
Israel's Not-So-Subtle Message to Iran That It is Watching and Poised to Strike. Iran has been involved in a stubborn and patient effort to turn Syria into a base of operations. But it has run into a brick wall in the form of an even more determined Israeli effort to disrupt this threatening process. The Israeli satellite imagery com-

pany, ImageSat International (ISI), released photographs in showing what it described as "Iran's land bridge from Tehran to the Mediterranean." The images show Iranian construction work on a new crossing on the Syrian-Iraqi border, which, according to ISI, would allow Iran to transfer weapons, armed personnel and oil into Syria. Cleric Demands Muslims Must "Strive to Obtain Nuclear Weapons" to Stop Zionists. In the Islamic republic of Mauritania where sharia is the law of the land, Cleric Muhammad Al-Hassan Ould Al-Dadou Al-Shanqiti said to his TV interviewer on Al-Aqsa TV that "Muslims have a duty to strive to obtain nuclear weapons because there is a threat that nuclear weapons might be used against them and it is the 'only way to deter the enemies' (jihadwatch.com 5/30)

Ramadan 2019

What is Ramadan? For Muslims, the month-long celebration commemorates Allah, the Arabic name for God, giving the first verses of the Quran, the Muslim holy book, to the prophet Muhammad in the year 610 A.D. For 30 days, Muslims around the world do not eat from dawn to dusk, pray intensely and gather for nightly feasts to break the fast. Observing Ramadan is one of the Five Pillars of Islam, the five duties that are obligatory for every Muslim. The date of Ramadan varies each year and is determined by the cycles of the moon. Ramadan is the ninth month of the lunar Islamic calendar, and

it officially begins the morning after the crescent moon is visible to the naked eye. In 2019, Ramadan began at sunset on Sunday, May 5, and lasted through sundown on Tuesday, June 4. Touted by some "the religion of peace", by day 29 of Ramadan, terror in the name of Islam registered 158 attacks and 758 kills. In comparison, there were 0 attacks and 0 kills in the name of all other religions combined, and only 1 attack and 1 kill by right-wing and Anti-Muslim extremists. Islamic terrorists have carried out 35,112 deadly attacks since 9/11. (indystar.com 5/3, thereligionofpeace.com)

What Else Is Happening?

Google Earth on Steroids: New U.S. Army Tech Can Look Inside Buildings. New mapping technology that is expected to transform training and simulation exercises for America's warfighters was unveiled at the IEEE Transportation Electrification Conference and Expo (ITEC) 2019 conference on May 15 in Stockholm, Sweden, reported National Defense Magazine. The software can "strip the outside of a building level by level and see what's inside the building. That's obviously very useful for operators." (prophecynewswatch.com 5/31)

Revolutionizing How the U.S. Wages War.

The very essence of war is getting a full high-tech makeover. Soldiers on patrol in future wars won't have to wait for air reconnaissance missions to give them crucial information on

targets over the next ridge. Instead, small, portable drones able to launch on a moment's notice will provide real-time data. Military teams in the field can carry with them light, inflatable "satellites" capable of establishing clear communications in a matter of minutes. (Endtime.com 6/1)

New Concerns About Health Effects As 5G Networks Go Up Nationwide. Even though many in the scientific community are loudly warning about the potential health effects that 5G technology could have on the general population, Verizon and AT&T are starting to put up their 5G networks in major cities all across the nation. (prophecynewswatch.com 5/23)

Report: LA's Rat-Infested Garbage Fueling Typhoid Fears. Rat-infested garbage left uncollected by the city of Los Angeles is re-

portedly fueling fear about a typhoid epidemic in the wake of a record number of 2018 cases of flea-borne typhus. "Trash and food waste attracts rats," infectious disease specialist Jeffrey Klausner told the news outlet. "It does pose a public health risk," adding a too-large rat population can possibly lead to the spread of salmonella strains and bubonic plague. (newsmax.com 5/22)

U.S. Treasury Department's Office of Debt Management: We're 5 Years From Point of No Return. With the national debt spiraling quickly out of control, there are only a few years left before every single dollar the government borrows will go toward funding interest payments on the national debt. (freedomoutpost.com 5/15)

And GOD saw that the wickedness of man was great in the earth, and *that every* imagination of the thoughts of his heart was only evil continually. (Gen. 6:5)

Is it Time for California Parents to Defy the Law? "We must obey

God rather than man" (see Acts 4:18-20; 5:29; to be perfectly clear, we're speaking of non-violent resistance to the law.) That time has come for parents in California. In good conscience, they must say NO to the school authorities and YES to the Lord. It's time to declare to the schools of Cali-

fornia, "Quit using our children as pawns in the culture wars! Quit sexualizing our kids!" I'm speaking about the radical new sex-ed curriculum being imposed on all students in the public schools, K-12, without exception, and without the option of parents removing their children from ob-

jectionable classes. We're talking about kindergarteners, little children just 5-6 years-old, being indoctrinated with transgender talking points. Indeed, "a book for kindergarten through third grade ... teaches kids that they can be a boy, girl, neither, gender queer or gender fluid, and that adults might not understand their gender identity." Parents, say NO to turning your little, pre-pubescent boys into sex-savvy, worldly-wise, street-talkers. We're talking about promoting outright perversion to your high-school kids. To be specific, "A book for high school students introduces sex acts for all sexual orientations and introduces the concepts of bondage, body fluid, blood play, fisting and other sexual behaviors once considered to be acts of debauchery." (prophecynewswatch.com 5/24)

Textbooks That Highlight LGBT. A bill is making its way through the Illinois House that would require school textbooks purchased with certain state funds to highlight the contributions of LGBT individuals to American history and culture. (Endtime Magazine, May/June, 2019 issue)

Our Nation

American Soil Is Being Globalized: 30 Million Acres of Farmland Foreign Owned.

All across America, U.S. farmland is being gobbled up by foreign interests. So when we refer to "the heartland of America", the truth is that vast stretches of that "heartland" is now owned by foreigners, and most Americans have no idea that this is happening. In reality our own soil is rapidly being "globalized". And while there is plenty of food to go around this is not a major concern,

but what happens when a food crisis breaks out and these foreign-owned farms just keep sending their produce out of the country?
